

HARSHAL BHOGAWADE

+91-9373685636 | harshalbhogawade1@gmail.com | LinkedIn | GitHub | Portfolio

EDUCATION

- **Ajeenkya DY Patil School of Engineering** Pune, Maharashtra, India
B.E. in Computer Engineering | CGPA: 9.35/10 Aug 2023 – June 2027
 - Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Project Management

TECHNICAL SKILLS

- **Languages:** C++, Java, Python, HTML/CSS, JavaScript, TypeScript
- **Frameworks:** React, Node.js, Express.js, Next.js, Spring Boot, Flask, Socket.io, Tailwind CSS
- **Databases:** PostgreSQL, MongoDB, MySQL, DuckDB
- **Testing:** JMeter, Playwright, TestNG, JUnit, API Testing, Performance & Load Testing
- **Cloud & DevOps:** AWS, Docker, Kubernetes, Kafka, Jenkins, Elasticsearch, Cloudflare R2, Bash
- **Tools and AI:** Git, GitHub, Linux, Postman, Maven, Agentic AI, MCP, Spring AI, Claude API, Prompt Engineering

EXPERIENCE

- **Software Developer Intern** Pune, Maharashtra, India
TraceLink April 2026 – September 2026
 - Architected an event-driven notification service using Kafka to trigger real-time alerts across asynchronous report processing workflows.
 - Shipped enhancements and fixes resolving customer-reported CMCP and validation issues.
 - Automated root-cause analysis of failed regression tests by extracting API/GraphQL failures from Playwright traces, wired through Codex, MCP-Kibana, and webhooks.
 - Built a local MCP server exposing Kibana for Codex, and a CLI data-modeling tool converting JSON schemas, eliminating manual UI-driven data creation.
 - Reduced regression execution time from 2.5 hours to under 1 hour by distributing Playwright and TestNG suites across parallel browser instances.
- **Software Engineer Intern** Mumbai, Maharashtra, India
SoundSpire Feb 2026 – March 2026
 - Built a Gemini API-based intelligent artist recommendation pipeline system.
 - Reduced user onboarding search time from 4 minutes to under 50 seconds.
 - Implemented real-time artist discovery and search by integrating the SoundCharts REST API.

PROJECTS

- **JMeter Agent – AI Performance Testing Tool** | *Java, Spring Boot, Spring AI, JMeter, Docker*
GitHub
 - Built an AI agent that turns recorded API traffic into JMeter load tests, auto-correlating auth tokens.
 - Added a self-healing loop that reads test failures, repairs and reruns scripts until every request passes.
- **LinkUp – Scalable Social Media Platform** | *Node.js, Express.js, MongoDB, React, Cloudflare R2*
GitHub | Live
 - Developed a scalable social media platform supporting posts, comments, likes, hashtags, and trending feeds.
 - Optimized storage by integrating Cloudflare R2 to replace AWS S3, reducing cost and improving efficiency.

ACHIEVEMENTS

- Scored a perfect **100/100** in Engineering Mathematics III at the university level (SPPU).
- Secured **1st Position** in the Blind Coding & Debugging Competition at Ajeenkya DY Patil School of Engineering.
- Solved **400+** DSA problems across platforms, achieving a **1600+** rating on LeetCode.
